## CAREER SUMMARY:

---

I am an aspiring software developer with knowledge in Java, HTML, CSS, JavaScript, MySQL, and basic Python. I am focused on developing web applications and enhancing my skills in both front-end and back-end technologies. My proficiency in HTML, CSS, and JavaScript allows me to create responsive and dynamic user interfaces, while my understanding of Java and MySQL supports secure and efficient back-end development. Additionally, I am learning Python to handle scripting and data manipulation tasks. I am dedicated to continuous learning and staying updated with industry trends to improve my software development capabilities.

## EDUCATION:

---

- Computer Engineering I Anna University, Tamil Nadu (Aug'21 -Aug'25)
- XII (BSEB) I Purnea College Purnea , Bihar | (2021 )
- X (BSEB) | High School Jadia , Bihar | (201 9)

## RELEVANT PROJECTS:

---

### Fake Profile Detection Using Machine Learning

Developed a machine learning system to identify fake profiles on social networking sites. Used algorithms like logistic regression and random forests to analyze user behavior and profile data, achieving high accuracy in detecting fraudulent accounts. Enhanced skills in data preprocessing, feature engineering, and model validation.

## SKILLS:

---

- JAVA
- Python
- HTML
- CSS
- JavaScript
- SQL

## CERTIFICATION

---

### Software services and solutions

- Web Development Intern at Software services and solutions Gained hands-on experience in building responsive web applications using HTML, CSS, JavaScript, and backend technologies.

### IIIT ALLAHABAD

- Machine Learning Intern at IIIT Allahabad: Developed and implemented machine learning models, enhancing skills in data analysis and model validation.

## LANGUAGE

---

- Hindi
- English
